

# MOBILE SCAFFOLD USE

## QUICK REFERENCE GUIDE

Access the working platform internally through the scaffold by climbing through the hatch deck using the rungs of the end frames as a ladder.

Ensure Frame Locking Pins are in place on the bottom hole of the frame as this will lock into the frame below. (Note – the top hole of the frame does not connect to the frame below)

# MOBILE SCAFFOLD USE

## QUICK REFERENCE GUIDE

Ensure Castor Wheels are locked in place by pushing down on locking clamp.

Adjust telescopic stabilisers for bracing stability  
(Note: **DO NOT EXTEND PAST STOP WARNING**).

Ensure stabiliser clamps are secured tightly on the frame.
